

AMENDMENTS TO THE SPECIFICATION

Please insert the following at page 9, line 5:

Figure 10, panels A to C, depict exemplary wedge-shaped calibration phantoms as described herein. FIG. 10, panel A, is a front view of an exemplary calibration phantom. FIG. 10, panel B, is an overview of an exemplary calibration phantom in which the thickness of the calibration phantom varies linearly along the length. FIG. 10, panel C, is an overview of an exemplary calibration phantom in which the thickness of the calibration phantom varies non-linearly along the length.
